

Fortbildung Veterinärimmunologie (Continuing Education Veterinary Immunology)

Institut für Immunologie, Veterinärmedizinische Fakultät, Universität Leipzig; donnerstags 9:15-10:45h;

Englisch; online (Zoom); Anmeldung bitte eine Woche im Voraus an sekimmun@rz.uni-leipzig.de
(Angabe Name, Adresse, E-Mailadresse)

Datum	Veranstaltungsthema	Referent*in
25.01.2024	Annual safety instruction; 3 pm Meeting BILL lecturer Jochen Hühn	Dr. Uwe Müller
01.02.2024	scRNA sequencing of equine BAL cells	Dr. Sophie Sage, Vetsuisse Faculty, Bern
29.02.2024	Considerations on porcine anergic B cells and possible detection systems for IgM B cell anergy	Dr. Uwe Müller
14.03.2024	<i>Aspergillus fumigatus</i> binding IgA and IgG1 in equine asthma	MSc Maria Jentsch, MSc Artem Korneev, Dr. Christiane Schnabel
04.04.2024	Journal Club: Adjuvants - State of the art	Prof. Dr. Matthias Büttner
11.04.2024	T cell responses in equine asthma	Dr. Christiane Schnabel
18.04.2024	Immunoregulatory canine non-conventional TCR $\alpha\beta^+$ CD4 $^-$ CD8 α^- double-negative T cells	Tierärztin Laura Karwig
26.04.2024	Identification of disease-relevant antigens in severe Equine Asthma	MSc Maria Jentsch
16.05.2024	Different B cell populations and their secretion of protective IgM in pigs	Tierärztin Anne Seidel
23.05.2024	Contribution of Immune Complexes to Severe Equine Asthma	Tierärztin Aline Keilhau
30.05.2024	Foot pad dermatitis in laying hens – Do laying activity, gonadal steroids, and immune system play a role in the etiology?"	Prof. Beryl Eusemann
06.06.2024	News on porcine B cells	Dr. Uwe Müller
13.06.2024	Journal Club: Tissue regulatory T cells (Tregs)	Dr. Maria Eschke
20.06.2024	IgA associated antigens in SEA (Draft name)	MSc Artem Korneev
